3.	<p>Build</p> <p>Jurisdictional Plan Review: SMARTIE Goals</p> <p>Background <i>The Cuyahoga County Jurisdictional Plan to End the HIV Epidemic was written in 2019-2020 with the help of several community partners and stakeholders. Each of the 57 jurisdictions in the U.S. were required to write their own plan for reducing new infections by 90% by 2030. The plan was thorough, informed, and goal-orientated; however, it lacks measurable outcomes by which our jurisdiction can evaluate success (besides the reduction in new infections). Therefore, it is the goal of this jurisdiction to update our plan with measures by which we can assess the great work we are doing to end the epidemic.</i></p> <p>Directions <i>CAG participants will count off by 5's. This will assign each person to either a pillar (diagnose, prevent, treat, or respond) or the overarching strategies of the jurisdictional plan. Once grouped together by the assigned number, the group will work to add SMARTIE goals to each of the strategies under their section of the jurisdictional plan. A SMARTIE goal is an updated version of</i></p>	CCBH/CAG

	<p><i>SMART goals (specific, measurable, attainable, relevant, and time-bound) with the addition of I and E (inclusive and equitable). Use the additional pages in this packet to write out your SMARTIE goals. Within your group, you can decide to work in pairs, threes, or any way you prefer to organize yourselves, so long as each strategy is worked upon. We will work for 45 minutes, and then return to the whole group.</i></p> <ul style="list-style-type: none"> We understand that due to time constraints, groups were not able to fully complete the activity. If you would like to be part of the team entrusted with updating Cuyahoga County’s EHE Jurisdictional Plan to include SMARTIE goals, please access the volunteer form HERE. Please reach out to Erin Janowski at ejanowski@ccbh.net with any questions.
