NOTES TO THE FINANCIALS

For the Period Ending June 30, 2024 the percentage of budget met for revenues and expenditures should be 50%. It is expected that this percentage may fluctuate based on specific program timelines. Any unanticipated variance will be specifically noted. Otherwise, the notes are broad and intended to provide a general overview.

Explanations for significant favorable and unfavorable revenue and expenditure variances are listed below.

REVENUE

City, Village & Twp. Contract - (100%) Revenues have been received as budgeted.

State Subsidy – (114%) Revenues are up because revenue received is \$70K higher than anticipated.

Licenses, Permits & Fees – (80%) Revenues are up because Food Service Operation and Retail Food Establishment license revenue that was due March 1st has been received. Also, swimming pool revenue that was due April 30st has been received.

Food Protection – (51%) Revenues have been received as budgeted.

Solid Waste Material Management – (48%) Revenues are minimally down by \$11K.

General Environmental Services – (86%) Revenues are up because CCBH received \$125K for a lead contract from ODH that was not anticipated.

Water Pollution Control/Sustainable Environments – (24%) Revenues are down, as expected, because it is not the peak time for activities; majority of PHASE II Storm Water- NEORSD and other community contract revenues come in during late spring, summer and mid fall.

Vaccine Preventable – (34%) Revenues are down because grant funds for Title X posted to GRF in 2022 and where adjusted back to the grant in 2023.

Family Health – (51%) Revenues are minimally up by \$3K.

Private Grants/Contracts – (18%) Revenues are down because funds for the County contract to support our building operations have not posted (Will be posted in July).

NOTES TO THE FINANCIALS CONT'D.

EXPENDITURES

Salaries – (58%) Expenditures are up because several adjustments to grants have not been completed.

Fringe Benefits – (58%) Expenditures are up because several adjustments to grants have not been completed.

Office/Copier/Computer Supplies – (42%) Expenditures are down because purchases are made as needed.

Chemical Supplies – (55%) Expenditures are up due to the seasonal purchase of mosquito larviciding products.

Housekeeping Supplies – (0%) Expenditures are down because purchases are made as needed.

Medical Supplies – (17%) Expenditures are down because the clinic orders vaccine inventory as needed.

Miscellaneous Supplies - (26%) Expenditures are down because purchases are made as needed.

Automotive Supplies – (27%) Expenditures are down because agency trucks have not been scheduled to be serviced yet.

Maintenance/Building Supplies – (45%) Expenditures have been spent as budgeted.

Contractual/Professional & Technical Services – (36%) Expenditures are down because contractual obligations are paid as services are rendered. Also, we have not entered into contract for all anticipated contractual service needs.

Tuition Reimbursement – (40%) Expenditures are down because not all of quarter 2 expenses have been submitted for reimbursement and there is a slight reduction of utilization by employees.

Postage – (63%) Expenditures are up, as expected, because larger scheduled mailings have occurred.

Telephone/Data Communications - (49%) Expenditures are minimally down by \$2K.

Meeting/Conferences/Travel/Mileage – (53%) Expenditures are up because some travel for grants were posted to the General Revenue Fund and will be adjusted back to the appropriate grants in the next few months.

Insurance Premiums – (0%) Expenditures are down, as expected, because premiums for property insurance are paid in late summer and liability insurance is paid in the fall.

Utilities – (52%) Expenditures are up slightly due to usage.

Maintenance/Repair Services – (27%) Expenditures are down because purchases are made as needed.

Lab Testing – (28%) Expenditures are down because this budget line item expends most funds in the summer months, primarily in the Sustainable Environments program area.

Publications/Subscriptions – (21%) Expenditures are down because the majority of this budget line item is for publications purchased for Serve-Safe manuals for food education training which have not been purchased for the year.

Printing – (16%) Expenditures are down because printing for programs occur as needed and a number of seasonal programs expend funds in late summer and early fall.

Memberships/Licenses – (80%) Expenditures are up because charges for training were incorrectly posted to this line item. Adjustments will be reflected properly in the next few months.

Other Expenses – (19%) Expenditures are down because this line item is used to budget for expenses that do not fall into other categories and mainly as a safety net. This line item is only used as needed and funds are anticipated to not be fully utilized.

License Remittance – (60%) Expenditures are up, as expected, because a portion of revenue collected for licenses, permits and fees is required to be remitted to the state upon receipt. Therefore, the majority of the Food Service Operation, Retail Food Establishment license and pool license revenue has been received and their remittance to the State has been paid.

Advertising – (162%) Expenditures are up because invoices for a COVID-19 campaign posted to this line item. Approval to charge to COVID-19 County subsidy funding will be requested. Charges will be adjusted prior to year-end.

 $Transfer\ Out-$ (5%) Expenditures are down, as expected, because this budget line item expends most of the funds at the end of the year.

Loan Repayment P & I – (22%) Expenditures are down, as expected, because principle and interest loan payments are made semi-annually.

Non-Capital Software/Equipment/Furniture – (24%) Expenditures are down, as expected, because not all scheduled purchases for the year have not been made yet. Purchases are made as prior installations are completed. Also, funds were budgeted for monthly billing of Microsoft Office vs. one time charges, and that has not occurred to date.

Capital Software/Equipment/Furniture – (0%) No budget for this line item.

It serves as a brief yet informative document that outlines the essential details of the program, making it easier for potential funders, stakeholders, or decision-makers to quickly grasp its purpose, goals, and significance.

- **1. Program Title:** The name of the program, which should be descriptive and indicative of its focus.
- **2.** <u>Program Objectives:</u> Clear and specific statements about what the program aims to achieve. These objectives should be in line with the program's mission and goals.
- **3.** <u>Target Audience/Community Impact:</u> Information about the intended beneficiaries or recipients of the program's services or outcomes.
- **4. Program Description:** A brief narrative describing the program, its activities, and its approach to achieving its objectives.
- **5. <u>Duration:</u>** The expected timeframe for the program, including start and end dates or any relevant milestones.

Dear Michele,

On behalf of First Year Cleveland, our Steering Committee, and generous community, I am pleased to inform you that Cuyahoga County Board of Health has been awarded \$50,000 for expansion/continuation of Cribs for Kids and car seat pilot with MetroHealth's Labor and Delivery Department.

To expedite payment, CWRU requires an invoice. Per the terms of the grant, you may invoice CWRU/FYC for 50% of grant funds immediately. The remainder will be reimbursed based on midpoint check-in and expense submission with FYC staff. An invoice template is included for your reference. We will contact you to schedule a visit or conversation in early October 2024.

By accepting funds, Cuyahoga County Board of Health agrees to submit a final report to First Year Cleveland within 30 days of the project's conclusion, or January 31, 2025. Timely and complete submission will be considered when applying for future funding. FYC expects unspent funds to be returned.

If you have any questions, please reach out to Stacey Hren or myself.

We are grateful for the work you do to uplift communities and expand Black-led healthcare for Black families, and we look forward to our continued partnership.

Sincerely,

Overdose Data to Action Overview

Overdose Data to Action: Limiting Overdose through Collaborative Actions in Localities (OD2A: LOCAL) is a grant program administered by the Centers for Disease Control and Prevention (CDC). CDC funds 40 city, county, and territorial health departments to build a strong foundation of cooperation and partnership across public health, behavioral health, health systems, community organizations, and public safety. This is necessary to build cohesive programs that reach people throughout communities and close gaps in access to services

Highlights

Cuyahoga is receiving \$2,851,407 each year for 5 years (9.1.2023-8.31.2028) over three components. This is Cuyahoga's second time getting CDC Overdose Data to Action funding (2019-2023). Hamilton County, Franklin County and the Ohio Department of Health also receive Overdose Data to Action funding.

Data (Cuyahoga County Medical Examiner's Office - CCBH data dashboard)

- 2022: 642 deaths in Cuyahoga County
- 2023: 635 deaths in Cuyahoga County (preliminary number)
- 54% of injury-related deaths in our county are due to drug poisoning or injuries (i.e., overdoses).
- Cleveland is the highest-burdened municipality in the county for drug-related fatalities
- Males remain more likely to die from an unintentional drug overdose and visit the emergency room for a suspected drug overdose than females.
- Those who are 35-44 years-old have the highest number and the highest rate of unintentional overdose deaths in Cuyahoga County. However, in preliminary 2023 data, those who were 55-64 years-old had the highest number of unintentional overdose deaths.
- Non-Hispanic white males have highest number of deaths
 - o However, Non-Hispanic black males have highest rate of deaths since 2021

Strategies

- Shared vision address disparities using evidence-based programs
- Target populations of people disproportionately impacted by the overdose crisis: African American and Hispanic populations; historically underserved; unhoused/homeless populations; returning citizens; those who have experienced a non-fatal overdose
- Evaluation
 - The evaluation will examine whether targeted interventions can reach those in greatest need and if not, outreach to these specific populations to draw insight into what changes are needed. Through survey data and interviews with individuals within these targeted populations, the Begun Center will seek to further identify barriers, system gaps, and lost opportunities that impede these individuals access, linkage and retention in treatment and harm reduction services.

1. Linkage to Care and Retention in Care

- Peer support in variety of settings (emergency rooms, outpatient clinics, crisis response teams in communities of risk, community locations, virtual locations, syringe services)
 - Includes culturally relevant peer navigators or interpreters and translation services
 - Training individuals to become peer supporters and assisting with employment
- Supporting linkage to treatment for inmates at county jail
 - Collaborate with participating judges to secure an alternative to incarceration (ATI) program pre-trial
- <u>DrugHelp.Care</u>: Link to local treatment and harm reduction services
- Creating systems/ways to follow with clients
- Understand barriers to recovery and ways to overcome barriers, such as transportation
- Peer navigation for women in recovery

2. Harm Reduction

- Community and provider educational seminars
- Community naloxone training and distribution
- Naloxone distribution specifically for EMS leave-behind program
- Developing a community response plan to overdose spikes
- Using data to identify high-risk area and offer outreach and harm reduction tools in locations

3. Stigma Reduction

- Dispelling Stigma gallery display
- Public safety stigma reduction training
- Educational seminars in Spanish
- Chronic pain management advisory group

• CRAFT and PREVENTURE curriculum for youth and families

4. Clinician and Health Systems Best Practices

- Training providers on harm reduction methods
- Academic detailing
- Controlled substance peer review
- Provider and FQHC education and training
 - Harm Reduction, Stigma reduction
 - CDC Clinical Practice Guideline for Prescribing Opioids for Pain United States, 2022

5. Surveillance

- CCBH data dashboard
- Maintaining data dashboard and data products

6. Drug Paraphernalia Testing

- Real-time testing of drug paraphernalia to track emerging substances in illicit drug supply and communicate results to target audiences
- Track changes in overdose risk and other public health harms
- Improve harm reduction strategies for people using drugs

7. Retention in Care Surveillance

Track the continuum of care to understand where people come into and out of care, why
they may enter or leave at a certain point to help us better support retention

8. Evaluation

- The evaluation will examine whether targeted interventions can reach those in greatest need and
 if not, outreach to these specific populations to draw insight into what changes are needed.
 Through survey data and interviews with individuals within these targeted populations, the
 Begun Center will seek to further identify barriers, system gaps, and lost opportunities that
 impede these individuals access, linkage and retention in treatment and harm reduction services.
- Qualitative and quantitative data collected by partner agencies will be used to make recommendations to partner agencies to modify their activities to improve their access and retention of disproportionately affected clients along systems of care.
